

School,LEA,Abuja. Now shown to me as Exhibit OLPC 1 is the Certificate of donation dated 19th February 2007.

18. Paragraph 3(n) of the affidavit in support of the Motion Ex parte for interim injunction dated 22nd November 2007 is false, the XO laptop is not being distributed through the 3rd and 5th Defendants or anyone whatsoever.
19. That further more, the purpose of the test was to discover how the Beta XO laptops would perform in the most rugged and rural environment in Nigeria and facilitate learning in the classrooms. That now shown to me as Exhibit OLPC 2 is a report prepared by Asabe Yabani , a Youth Corper with the 5th Defendant during week 38 of the test.
20. The Galadima School,L.E.A TEST PROJECT is completed .
21. All the Beta XO laptops are in the possession of ONE LAPTOP PER CHILD NIGERIA LIMITED BY GUARANTEE until the shool resumes.
22. Contrary to paragraph 3 (f) of the affidavit in support of the Motion Ex Parte application for interim injunction dated 22nd November 2007 , the Plaintiffs/Respondents do not have a Registered Patent on the Konyin Keyboard and at all material times there was not and never been in existence any Registered Design or Registered Patent.
23. Any purported registration of Registered Design No.8489 and extension is and has at all material times been invalid. The features highlighted in 3(e) of the Affidavit in support of the ex parte motion for Interim Injunction are totally false,misleading and vague.
24. Plaintiff s/Respondents did not disclose material facts pertaining to the status and objective of the 1st Defendant/Applicant as a NOT FOR PROFIT/NON STOCK ORGANISATION duly incorporated under the Laws of the Delaware. Now shown to me as Exhibit OLPC 4 is a certified true copy /notorised Certificate of Incorporation , Memorandum and Articles of Association and Financial Statement of 1st Defendant/Applicant for December 31,2006 and 2005 prepared by Lutz and Carr ,Certified Public Accountants,LLP shown to me as Exhibit OLPC 5.
25. The 1st Defendant's /Applicant's goal is a humanitarian and developmental mission currently focused on equipping large numbers of school children and their teachers in developing and developed countries with ultra low cost, individual, connected laptop computers to dramatically enhance their primary and secondary education.
