FILE: OS/2

Microsoft®

February 19, 1991

Mr. Brian Herdeg
Director of Software Development
JANUS Systems Inc.
833 Flynn Road
Camarillo, CA 93012-8737

Dear Mr. Herdeg:

I appreciate your letter of February 8, 1991. Please be assured that Microsoft is committed to OS/2. Our plans in OS/2 3.0 are to bring Windows (including Windows 32-bit) to the OS/2 environment. We will include the threads, task management, and other features that customers and developers have appreciated in OS/2. Windows and OS/2 will both be enhanced. OS/2 will be a truly compatible superset of Windows. Enclosed please find a white paper we have written detailing our views. If you have other questions please contact Cameron Myhrvold of my staff.

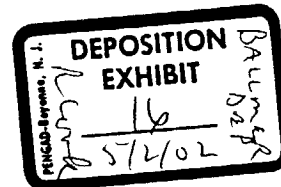

Sincerely,

A handwritten signature in cursive script that reads "Steven A. Ballmer".

Steven A. Ballmer
Senior Vice President
Systems Software
