PLAINTIFF'S  
EXHIBIT  
3393  
Comes v. Microsoft

To: Bill, Said, Bruce, David W.  
From: Joe  
Date: 4/21/89  
Subject: Undocumented Windows Calls

---

On 4/18/89 I submitted a service request (number SRG890418016551) regarding the two undocumented Windows calls Excel makes:

- DefineHandleTable
- PatchCodeHandle

Microsoft rep Jeff Stewart had the following to say:

I can't comment on these undocumented functions, and prior to your SR regarding them, I had never heard of them (I don't know off hand what they do). If they are functions that are of some importance, then maybe they'll be documented in the next SDK.
