Subject: Attorney Client Privileged Mail - Financial Information

Importance: High

Steve - we are set to meet tomorrow am at 8:30 to go through Financial forecast information. Attached is the FY01 forecast on a GAAP basis. Revenues and expenses reflect budget plus adjustments for MAP to GAAP. The revenue does include \$100m in OEM commitment from Joachim that is not in the budget- this revenue is in H2 of FY01.

Before any adjustments outside of current forecast, GAAP, FY01 revenue growth is 16%, and EPS growth is 7%.

The far right hand columns show a number of planned or potential adjustments on a GAAP basis. These adjustments are not in the budget. These adjustments increase revenue growth to 18% and EPS to 16%. They do include \$300 million reduction in operating expenses due to headcount hiring and associated costs being below plan.

We have a schedule that we will walk you through that gets from MAP to GAAP. We also do have a schedule that reconciles the steveb exec p&l to GAAP.

We can discuss Q01-1 forecast and full year tomorrow when we meet including the timing of some of the planned adjustments. For proper context it is best to do them offline.
