Agenda:

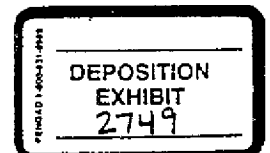

- Timing for Chicago disclosure. What will be the impact of the January Chicago SDR and how will it be managed? Should we have a short and long term disclosure plan.
- Should we describe Chicago as "Windows NT lite?" NO
- Keep Chicago code name or change to "the next version of Windows on MS DOS" Windows 4.0? *Jon L to send mail: ms DOS upgrade needs & prompts*
- How much to disclose about merging Windows and MS DOS in Chicago? *Windows 4.0 on MS-DOS*
- How are we going to position Windows NT versus Chicago? NO
- What is Cairo? Is it a set of advanced services or a product?

• will there be a WFO, when we ship Chicago?
~~that's marketing decision~~
yes WFO continues

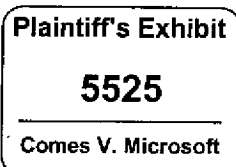

• The next version of windows is for DOS

• What about Windows NT 4.0?
It's coming in around the same timeframe

1993. WinNT 3.1, later in 1994 WinNT 4.0
That is a superset of windows 4.0
