Opher,

Can you add the PLAY, PAUSE, STOP, search and other controls to the embedded WM player code?

Right now, you lose some helpful functionality going from Real to Windows Media.

Thanks,
-Dan

Hi James,

Just wanted to let you know that we can now make any MovieFix movie show Windows Media only branding. Please click on the two links below for an example. We are now ready to be featured on WindowsMedia.com. Also, the family filter should be ready by this Friday. Look forward to hearing from you.

http://www.movieflix.com/movie_info.mfx?movie_id=176 - ***without Real Player branding***

http://www.movieflix.com/movie_info.mfx?movie_id=178 - with Real Player branding

Best,

Robert Moskovits
